A message to those Americans who don’t happen to think the land of milk and honey is going all sour.

Our country is in a strange mood these days.
Uncertainty surrounds us.
So what can you do about it?
Well, first of all, maybe you should take a long, hard look at this country of ours. Maybe we should look at our healthy side as well as our ills.
And maybe, just maybe, you’ll find we’re not all that bad.
Sure we have our problems.
And they’re not going to go away if you just stand along the sidelines as a spectator.
But they might start to go away if you seriously want to do something for your country.
A U.S. Savings Bond is one way. Let’s say you fork over $18.75 of your hard-earned cash. Through a Payroll Savings Plan where you work, or at your bank. That will give you a Bond that’s worth $25.00 in just 7 years. If you did that every month you’d stash away quite a nest egg for yourself.
And so would your country.
Your country would be economically stronger to find remedies for some of the headaches we have.
While it’s preserving something called freedom.
Something that’s hard to appreciate. Until you lose it.
Savings Bonds now have a new high interest rate of 4¼%. And buying them gives you the privilege of also buying the even higher interest 5% Freedom Shares in combination.
However you look at it, it simply makes a lot of sense to invest in your country.
After all, it’s the only country you’ve got.
