Do You Know IgG, IgA, IgM,

$\alpha_1$ — Antitrypsin, Haptoglobin, C3,
$\beta$ — Lipoprotein, Transferrin, Albumin,
$\alpha_1$ — Acid Glycoprotein, $\alpha_2$ — Macroglobulin...

If your laboratory is one of those sophisticated enough to take advantage of specific serum protein quantitation for supportive evidence of pulmonary disease, collagen disorders, autoimmune diseases, infections, hepatic and renal diseases, anemias, lipoproteinemias, immunologic deficiencies, and other clinical problems, you do know. You are one of those who can appreciate the benefits of an elegant and reliable technique for specific protein assays, and the advantages of having accurate results available for use in less than 30 minutes. If you know, then your laboratory is ready for an economical Automated Immunoprecipitin System for quantitation of specific serum proteins. Let us tell you about it. Department 168.

HOW TO GET THE SHOW ON THE ROAD.

Now you have the Beckman New Dimension Series of audio-visual technical programs available for your own lab, plant, or classroom… the same professionally acclaimed courses offered nationwide in Beckman Training Centers.

Each program, in a special album, consists of printed script, set of 35mm slides, and tape cassettes automatically keyed to the slides.

Courses listed below range from basic material to advanced instruction. For prices and full information, call or write to Beckman Technical Education Center, 2500 Harbor Blvd., Fullerton, Calif. 92634.

- Enzymatic Analysis
- Instrumental Method in Cell Biology
- Liquid Scintillation Counting
- Electrochemical Measurements
- Physiological Measurements
- UV-Visible Spectroscopy
- Infrared Techniques
- Radioimmunoassay
- Gas Chromatography
- Electrophoresis
- Electroencephalography

Radioimmunoassays

As the most sensitive test, Radioimmunoassay has the fastest growth of any clinical chemistry technique.

Share in the promise of this technique with a minimum of risk, trouble and delay. Clinical Assays offers you a 3-point program meeting the needs of any laboratory.

1. To establish a capability in your laboratory, Clinical Assays will act as your reference lab.
2. When your activities have reached a level that makes it economical to set up your own procedures, we will train your personnel. Workshops are held frequently.
3. We will assure your continuing satisfaction with our reagents.
