Sure cure for doubt.

The label values of Technicon® SMA™ Reference Serum 2 are determined in our Quality Control Department, confirmed in our Development and Evaluation Laboratory, and confirmed again by an independent clinical laboratory.

As a result, the values of this 2nd-generation Reference are consistent from lot to lot and vial to vial. And, if you doubt this statement, you can check the values in your own laboratory by using the methodologies provided by Technicon specifically for this purpose.

Technicon SMA Reference Serum 2 is a product of incomparable quality, which assures the accuracy of your SMA™ and AutoAnalyzer™ II systems. No doubt about it. For more information write to Department 201.
