REVIEW

Structure and Function of Atrial Natriuretic Peptides

U. Ackermann 241

ARTICLES

Improved Fluorescence Polarization Assay for Use in Evaluating Fetal Lung Maturity. I. Development of the Assay Procedure

Jonathan F. Tait, Robert W. Franklin, Joanne B. Simpson, and Edward R. Ashwood 248

II. Analytical Evaluation and Comparison with the Lecithin/Sphingomyelin Ratio

Charles A. Foerder, Jonathan F. Tait, Robert W. Franklin, and Edward R. Ashwood 255

III. Retrospective Clinical Evaluation and Comparison with the Lecithin/Sphingomyelin Ratio

Edward R. Ashwood, Jonathan F. Tait, Charles A. Foerder, Robert W. Franklin, and Thomas J. Benedetti 260

Apolipoprotein E Quantified by Enzyme-Linked Immunosorbent Assay

J. Bury, R. Vercaemst, M. Rosseneu, and F. Belpaire 265

Creatine Kinase: Reassessment of Optimal Concentrations for Adenosine-5'-Diphosphate and Magnesium

Christiane Lahet, Arlette Vialle, Irène Maire, Bernard Parrin, Jean-Paul Steghens, and Monique Mathieu 271

Homogeneous, Liposome-Based Assay for Total Complement Activity in Serum

Donald W. Bowden, Marcia Rising, Gita Akots, Arthur Myles, and Robert J. Broeze 275

Characterization of Lysosomal Acid Phosphatase from Normal and Malignant Mammary Tissue

Oswaldo Luis Podhajcer, Jorge E. Filmus, and José Mordoh 279

Improved Estimation of Cholesteryl Ester Transfer/Exchange Activity in Serum or Plasma

J. E. M. Groener, R. W. Pelton, and G. M. Kostner 283

Reversed-Phase Liquid-Chromatographic Determination of Purine Compounds in Serum Applied to Studies of Hypouricemia

Tsukasa Kojima, Toshihiro Nishina, Motoshi Kitamura, Naoyuki Kamatani, and Kusuki Nishioka 287

Differentiating Muscle Damage from Myocardial Injury by Means of the Serum Creatine Kinase (CK) Isoenzyme MB Mass Measurement/Total CK Activity Ratio

Magdeleine El Allaf, Jean-Paul Chapelle, Dia El Allaf, Albert Adam, Marie-Elisabeth Faymonville, Philippe Laurent, and Camille Heusghem 291

Three Methods Compared for Determination of Pancreatic and Salivary Amylase Activity in Serum of Cystic Fibrosis Patients

Robert O. Wolf, Van S. Hubbard, Baiba K. Gillard, and Albert Kingman 296

Laboratory Tests in the Differential Diagnosis of Hyperamylasemia

Norbert W. Tietz, William Y. Huang, D. F. Rauh, and Denise F. Shuey 301

Analytical Variance and Definition of a Reference Change as a Function of Calcium Concentration

Samuel P. Caudill and D. Joe Boone 308

Stability of NADPH: Effect of Various Factors on the Kinetics of Degradation

James T. Wu, Lily H. Wu, and Joseph A. Knight 314

Thrombin Clotting Activity Measurement and Standardization with Lyophilized Plasma

John W. Fenton II, Carol S. Wideman, and Bruce L. Evatt 320

Screening and Quantification of Hypnotic Sedatives in Serum by Capillary Gas Chromatography with a Nitrogen-Phosphorus Detector, and Confirmation by Capillary Gas Chromatography-Mass Spectrometry

Vivien A. Soo, Robert J. Bergert, and Dale G. Deutsch 325

Subscriptions

Clinical Chemistry and Clinical Chemistry Reference Edition (CCRE) are issued monthly. Subscriptions are to be prepaid; payment should accompany the order. **Individuals** subscribe to *Clinical Chemistry*; rates per year: \$55.00 in US; \$65.00 in North America outside US; \$80.00 elsewhere. **Institutions** subscribe to *CCRE*; rates per year: \$150.00 in US; \$165.00 in North America outside US; \$185.00 elsewhere. Members, domestic and foreign, \$55.00 (included in dues). Both are also available in microfilm or microfiche. Japanese yen price is available from our exclusive agent in Japan: USACO CORPORATION, 13-12, Shimbashi 1-chome, Minato-ku, Tokyo, 105 Japan. All subscriptions before Oct. 1 start with first issue of the current volume. Single copies of current and back-volume issues \$8.00 (10.00 CCRE); ask for current prices on Special Issues. Claims for missing numbers will not be allowed (a) unless we are notified no later than three months after the issue date for domestic and Canadian subscribers, four months after the issue date for foreign subscribers; (b) if notice of a recent change of address has not been received; or (c) if the reason for claim is "missing from files."

Advertising Inquiries should be sent to Scherago Associates, Inc., 1515 Broadway, 10th Fl., New York, NY 10036. Second class postage paid at Washington, DC 20006 and additional mailing offices. Published monthly by the American Association for Clinical Chemistry, Inc., 1725 K Street, NW, Washington, D.C., 20006. Printed at 20th and Northampton Sts., Easton, PA 18042. Postmaster: Please send all change-of-address forms to: *American Association for Clinical Chemistry, Inc.* 1725 K St. NW, Washington, D.C. 20006.
