We give you the highest throughput of reportable results . . . on your workload . . . not just in our advertising!
The American Association for Clinical Chemistry is proud once again to bring the proceedings of the annual Oak Ridge Conference on Advanced Analytical Concepts for the Clinical Laboratory to the readers of Clinical Chemistry. The conference was held April 17–18, 1986, in Knoxville, TN.

The Association has sponsored these Conferences since their inception 18 years ago. Their continued success reinforces the value of advances in analytical capability to the health of individuals in the United States and elsewhere in the world. We gratefully acknowledge grants from Abbott Laboratories; Ames Co., Division of Miles Laboratories; Beckman Instruments/Geometric Data; Boehringer Mannheim Corporation; Cooper Biomedical, Diagnostics Division; Du Pont Company; Instrumentation Laboratory, Inc., Division of Allied Corporation; and Technicon Instruments Corporation, which helped to support the Conference.

We also thank the members of the Oak Ridge Conference Committee for their efforts in organizing the conference: Carl A. Burtis (Chairman), Oak Ridge National Laboratory, Oak Ridge, TN; Thomas P. Moyer, Mayo Clinic, Rochester, MN; Brian W. Renoe, Abbott Diagnostics Division, Irving, TX; Thomas O. Tiffany, Instrumentation Laboratory, Inc., Spokane, WA; and Peter Wilding, Geometric Data, Wayne, PA.

The 19th annual conference will be held April 9–10, 1987, in San Antonio, TX. We look forward to seeing many of you there.

Jack H. Ladenson
