Therapeutic Drug Monitoring in the Management of Depression: Clinical and Methodological Issues; a Conference Held in Dallas, TX, October 30–31, 1987

| Preface | Paul J. Orsulak | 805 |
| The Changing Epidemiology of Depression | Gerald L. Klerman and Myrna M. Weissman | 807 |
| Clinical Diagnosis of Mood Disorders | A. John Rush | 813 |
| Therapeutic Drug Monitoring of Tricyclic Antidepressants | Sheldon H. Preskorn, R. Cameron Dorey, and George S. Jenkovich | 822 |
| Antidepressants in the Medically Ill: Diagnosis and Treatment in Primary Care | Wayne Katon and Peter P. Roy-Byrne | 829 |
| Antidepressants in the Treatment of Post-Psychotic Depression in Schizophrenia: Drug Interactions and other Considerations | Samuel G. Siris, Ann P. Selkew, Kathleen Frechen, Thomas B. Cooper, John Mandel, and Elaine Casey | 837 |
| Is There a Practical Alternative to Therapeutic Drug Monitoring in Therapy with Tricyclic Antidepressants? | Sheila Dawling | 841 |
| Measurement of Antidepressants by Liquid Chromatography: a Review of Current Methodology | Steven H. Y. Wong | 848 |
| Cardiovascular Effects of the Standard Tricyclic Antidepressants | Alexander H. Glassman, Randy Pardell, and Sally Woodring | 856 |
| Reliability of Antidepressant Assays: a Reference Laboratory Perspective on Antidepressant Monitoring | Kingsley R. Labrosse and Harry G. McCoy | 859 |
| Pharmacokinetic Factors Affecting Antidepressant Drug Clearance and Clinical Effect: Evaluation of Doxepin and Imipramine—New Data and Review | Larry Ereshefsky, Tram Tran-Johnson, Chester M. Davis, and Alicia LeRoy | 863 |
| Compliance during Tricyclic Antidepressant Therapy: Pharmacokinetic and Analytical Issues | James M. Perel | 881 |

OPINION

Medicolegal Alcohol Determination: Widmark Revisited | G. Simpson | 888 |

REVIEW

Valproic Acid and the Liver | Dita Cotaru and Jacob Zaidman | 890 |

ARTICLES

Creatine Kinase MB in Cases of Skeletal Muscle Trauma | Joyce G. Schwartz, Thomas J. Pihodra, John H. Stuckey, Carol L. Gage, and Margaret L. Darnell | 898 |

Quantification of Hemoglobin S, C, and F by a Magnetic Affinity Immunoassay | Hugo Moscoso, Charles R. Kiefer, Abdullah Kutlar, and Fred A. Garver | 902 |

Subscriptions
Clinical Chemistry and Clinical Chemistry Reference Edition (CCRE) are issued monthly. Subscriptions are to be prepaid; payment should accompany the order. Both are available in microfilm or microfiche. Japanese yen price is available from our exclusive agent in Japan: USACO CORPORATION, 13-12, Shimbamichi, Minato-ku, Tokyo, 105 Japan. All subscriptions before Oct. 1 start with first issue of the current volume. Single copies of current and back-volume issues $8.00 ($10.00 CCRE); ask for current prices on Special Issues. Missing Copy claims will not be allowed (a) unless we are notified no later than three months after the issue date for domestic and Canadian subscribers, six months after the issue date for foreign subscribers; (b) if notice of a recent change of address has not been received; or (c) if the reason for claim is "missing from files." To process claims, subscriber number and exact name and address of subscriber as they appear on mailing list must be referenced in correspondence.

Advertising Inquiries should be sent to Scherago Associates, Inc., 1515 Broadway, 10th Flr., New York, NY 10036. TEL 212-730-1050. TELEX WU 96582 SCHERAGO.
The contents of advertisements or articles in *Clinical Chemistry* (ISSN 0009-9147) are not to be construed as official statements, evaluations, or endorsements by the Board of Editors or the American Association for Clinical Chemistry, Inc.
