Vol. 39:

p. 527. In the article by N. E. Morrissey, S. F. Quadri, R. Kinders, C. Brigham, S. Rose, and M. J. Blend entitled "Modified method for determining carcinoembryonic antigen in the presence of anti-murine antibodies," 1993;39:522-9, the graphs A and B in the left-hand column of page 527 should be exchanged with graphs A and B in the right-hand column, so that the legend for Figure 2 refers to graphs for two HAMA-negative patients and the legend for Figure 3 refers to three HAMA-positive patients.

p. 1401. In the article by J. M. Queraltó, J. C. Boyd, and E. K. Harris entitled "On the calculation of reference change values, with examples from a long-term study," 1993;39:1398-403, the last two columns of Table 4 are incorrect: in the next-to-last column, a misprint occurred in the line for sodium; in the last column, a number was omitted, causing other numbers to be mislabeled. The columns should have read as follows:

<table>

p. 1901. In the Scientific Note by R. G. Parsons, R. Kowal, D. LeBlond, V. T. Yue, L. Neergard, L. Bond, D. Garcia, D. Slater, and F. Rogers, enti-

ted "Multianalyte assay system developed for drugs of abuse," 1993;39:1899-903, the word "tribexyphenylid" in line 1 of the text in column 2, page 1901, should read "tribexyphenylid.

p. 1942. In Oak Ridge Conference paper by R. Devlin, R. M. Studholme, W. D. Dandliker, K. Blumeyer, and S. S. Ghosh, entitled "Homogeneous detection of nucleic acids by transient-state polarized fluorescence," 1993;39:1939-43, the x-axis for Figure 5 should read: "Volume of SSR product solution (10^{-4} \times \text{mL})," not (10^{-8} \times \text{mL}).

p. 1982. In the Oak Ridge Conference Poster Session, the paper by D. Crisan, M. J. Ansett, N. Matte, and D. H. Farkas entitled "Detection of bel-2 oncogene rearrangement in follicular lymphoma: nucleic acid hybridization and polymerase chain reaction compared," 1993;39:1860-2, the word "bone" in the first line at the top of page 1982 should have read "bone marrow."
