

CHROMSYSTEMS®

DIAGNOSTICS BY HPLC & LC-MS/MS

MassTox® THERAPEUTIC DRUG MONITORING

Validated for Tandem Mass Spectrometry

13 NEW DRUGS ADDED

Neuroleptics

Amisulpride
Chlorprothixene
Levomepromazine
Perazine
Pipamperone
Promethazine
Ziprasidone

Psychostimulants

Ritalinic Acid
Methylphenidate
Atomoxetine

Antidepressants

Mianserin
Reboxetine
Trazodone

These new drugs extend the existing Chromsystems MS/MS TDM range to 33 analytes.

Information for Authors

Clinical Chemistry is published by the American Association for Clinical Chemistry (AACC). The journal welcomes contributions of original information, experimental or theoretical, that advance the science of clinical chemistry. Submissions should adhere to the "Uniform Requirements for Manuscripts Submitted to Biomedical Journals" (<http://www.icmje.org>).

Manuscript Review. Manuscripts are evaluated by anonymous peer reviewers. Authors are usually notified of the disposition of a manuscript within three to four weeks of its receipt. Equal consideration is given to manuscripts in English from any country, whether or not the author is a member of the AACC.

Copyright. Manuscripts are considered with the understanding that each author has participated in the work and assumes responsibility for the content; that the authors have disclosed any potential conflicts of interest; that the same information has not been and will not be submitted for concurrent review, nor published elsewhere (other than as an abstract, preliminary report, or poster cited in the manuscript); that unique materials necessary to reproduce the results are available to readers; and that if the manuscript is accepted, copyright will be transferred to the publisher. To convey these assurances, all authors must sign the copyright form provided at acceptance.

Unpublished Work. When citing unpublished work or opinions of others, provide a permission letter from them.

Manuscript Preparation. *Text:* Most common word-processing software formats are accepted; Microsoft Word is preferred. Use 12-point font, 1-inch margins, and double spacing throughout. Do not use headers or footers, but do number the pages, starting with the title page as page 1. For guidance on manuscript preparation and style, consult our Information for Authors at http://www.clinchem.org/info_ar/info_authors.shtml.

Images: The acceptable image file formats for print publication are TIFF (tagged image file format) and EPS (encapsulated postscript) both at 600 dpi resolution. The figures must be submitted as independent files, not embedded within a word processing document. Microsoft PowerPoint (PPT) files are also acceptable, but each file must have embedded fonts and only one image per slide, one slide per file. Verify that symbols and lettering will be legible when reduced to publication size. Figures should be redesigned or recreated if they do not appear sharp and clear on paper. Authors are advised to use our online Digital Expert evaluation tool to test print figures before submitting them.

The author will be required to bear the full cost of the preparation and publication of color illustrations, invited contributions excepted. The charge for the first color figure is \$1500. Subsequent color figures or parts of figures are \$500 each.

Tables: Tables should be created in a common word-processing format. Spreadsheet-generated or embedded image tables should be recreated in the word-processing document and included with the text of the manuscript.

Submission and Tracking of Manuscripts. Submit and track status of manuscripts at <http://submit.clinchem.org>.

The complete Information for Authors is available at http://www.clinchem.org/info_ar/info_authors.shtml.

Clinical Chemistry (ISSN 0009-9147) is published monthly by the American Association for Clinical Chemistry, 1850 K Street, NW, Suite 625, Washington, DC 20006.

Editorial Office Address. For additional information about manuscript submission and reviewing, contact the editorial office. Telephone 202.420.7678; fax 202.833.4576; e-mail clinchemed@clinchem.aacc.org. Address for regular mail or courier: Clinical Chemistry, 1850 K Street, NW, Suite 625, Washington, DC 20006.

Subscriptions: Contact the AACC Subscriptions Department at 1850 K Street, NW, Suite 625, Washington, DC 20006. Telephone 800.892.1400 or 202.857.0717; fax 202.887.5093; or Web sites <http://www.clinchem.org> or <http://www.aacc.org>. Annual 2011 rates: Print and online institutional subscription USA \$1,158, elsewhere \$1,337. Individual subscription USA \$350, elsewhere \$542. Airmail delivery outside USA is an additional \$290. Online only (no print) institutional subscription \$776; individual subscription \$235. Individual subscriptions are for personal use and not to be used in a library.

Reprints: Reprint order forms are mailed to authors with their page proofs. Reprints can also be ordered at any time by contacting the Cadmus Reprint Department. Telephone 1.866.487.5625 or 410.943.3728; fax 410.820.9765. Minimum reprint order is 100 copies.

Back Issues: Selected complete back volumes and single copies of current and back issues are available from AACC. Contact the Subscription Department for pricing.

Missing Copies: Claims will not be allowed (a) unless we are notified within 3 months after the issue date for domestic and Canadian subscribers, or 6 months after the issue date for foreign subscribers; (b) if notice of a recent change of address has not been received; or (c) if the reason for claim is 'missing from files'. For claims to be processed, the subscriber's number and exact name and address as they appear on the mailing label must be included in correspondence.

Abstracting and Indexing Services: *Clinical Chemistry* is covered by Abstracts Express, Analytical Abstracts, Biological Abstracts, BIOSIS, Chemical Abstracts Service, Current Awareness in Biological Sciences, Current Clinical Cancer, Current Contents/Life Sciences, Excerpta Medica/EMBASE, Index Medicus, MEDLINE, Reference Update, Research Alert, Science Citation Index, Sociedad Iberoamericana de Información Científica (SIIC) Data Bases, and SciSearch.

Disclaimers: Manuscripts published in *Clinical Chemistry* reflect the individual views of their authors and, in the absence of a statement to the contrary, not the views of the institutions with which the authors are affiliated. The contents of advertisements or articles are not to be construed as official statements, evaluations, or endorsements by the Editor or the American Association for Clinical Chemistry.

Advertising Inquiries: Contact Scherago International, Inc., 525 Washington Blvd., Suite 3310, Jersey City, NJ 07310. Telephone 201.653.4777; fax 201.653.5205; e-mail aacc@scherago.com; Internet <http://www.scherago.com>.

Clinical Chemistry Quick Guide to Submission

For additional article types and detailed instructions, please see our Information for Authors at http://www.clinchem.org/info_ar/info_authors.shtml.

Type of Submission*	Word Limit	Structured (S) or Unstructured (U) Abstract: Word Limit	Maximum Number of References	Total Number of Tables/Figures
Article	3,500	S: 250	40	6
Brief Communication	1,500	S: 250	20	1 each
Citation Classics	600	Nonapplicable	6	Nonapplicable
Clinical Case Study (Case description) w/ 3–5 questions with up to 5 points to remember	1,500 (500)	Nonapplicable	10	2
Clinical Case Study Commentary	300	Nonapplicable	Nonapplicable	Nonapplicable
Editorial	1,500	Nonapplicable	15	Nonapplicable
Letters to the Editor / Reply	750	Nonapplicable	5	1
Mini-Review	3,500	S: 250	40	4
Opinion	1,500	Nonapplicable	15	1
Perspective	1,500	Nonapplicable	5	1
Review	5,000	S: 250	75	6
What Is Your Guess? Case description w/ 3 Questions Case discussion	75 75	Nonapplicable	5	1

*This chart represents common types of submissions to *Clinical Chemistry*.

Manuscript Formatting

- Double-spaced text, 1-inch margin, 12-point font size in Arial, Helvetica, or Times New Roman
- Numbered pages with references numbered sequentially in main text
- Title page listing title, authors (first name, middle initial, last name), each author's affiliation during the study, corresponding author's contact information, running title, keywords, list of any previous presentation of manuscript, and any disclaimers
- Reference list formatted according to Information for Authors with Journal abbreviations in the reference list checked against the National Center for Biotechnology Information database (<http://www.ncbi.nlm.nih.gov/>)
- SI units used throughout manuscript according to Information for Authors

Metadata (to be entered online)

- A valid and unique e-mail for each author
- Authors' current institution, address, telephone, and fax
- Author Disclosure Forms and Contribution Forms to be completed by each author before submission. Copyright Transfer Agreement to be completed by each author after acceptance.
- Clinical Chemistry* manuscript number of any companion papers (if applicable)

Compliance with Guidelines

- A STARD checklist is required for all studies or trials of the diagnostic accuracy or performance of a diagnostic test, a CONSORT diagram is required for all randomized and Phase III trials, a MIAME checklist is required for all studies that present data for microarray experiments.
- All studies involving human subjects must indicate that they are in compliance with the Declaration of Helsinki ethical principles for medical research involving human subjects.
A statement must be included in the text that Institutional Review Board approval was obtained and written informed consent obtained from study subjects.

Permissions

- Written permission from the copyright holder is required to reproduce any copyrighted material

Keynote Presentation

Evolution of HIV Diagnostic Testing and Continuing Challenges

Bernard M. Branson

*Division of HIV/AIDS Prevention
Centers for Disease Control and Prevention*

A highly regarded expert in infectious disease testing, Dr. Branson is the lead author of CDC's forthcoming revised recommendations for HIV testing. He conducts research on HIV prevention strategies and has been the chief architect of new technologies for HIV testing, including rapid tests and tests for HIV incidence.

Special Presentation

FDA Oversight of Laboratory-Developed Tests: A Status Report

Alberto Gutierrez

Food and Drug Administration

Four Sessions

- New Sequencing Technologies for Clinical Diagnostics
- Innovative Technologies for Infectious Disease Diagnostics
- New Technologies for Quantitative Pathway Mapping in Tissues
- Novel Nanotechnology Approaches for Diagnostics

In addition to the invited speakers, the conference will feature oral presentations of selected abstracts, a poster session, networking breaks, and a reception.

Registration Fees (PID 6176)

	Early Bird	Regular
AACC Member	\$ 825	\$ 950
Non-member	\$1,050	\$1,175
Student/Emeritus Member	\$ 425	\$ 550

To qualify for the early registration fee, full payment must be received no later than March 25, 2011. Not an AACC member? Become a member and save. See the AACC Web site or ask Customer Service for details.

How to Register

Online: www.aacc.org (credit card or checks)

By Phone: (800) 892-1400 or (202) 857-0717

Select Customer Service (credit card only)

Accommodations

The special room rate at the Renaissance Harborplace Hotel, Baltimore is \$214 plus tax. The special rate is good until March 13, 2011, or until the block of rooms is sold out. Phone: (410) 547-1200.

AACC and NACB Present

Glycemic Control in the Hospital: Evidence, Issues, and Future Directions

29th Arnold O. Beckman Conference
April 12-13, 2011
Omni San Diego Hotel
San Diego, California

Come to San Diego this spring and hear renowned speakers discuss current perspectives, issues, and future strategies on the practice of glycemic control in hospitalized patients.

Dr. Greet Van den Berghe, from the University of Leuven (Belgium), will start the conference by discussing the landmark Belgian study on the effects of intensive insulin treatment on critically ill patients.

Additional Conference Highlights:*

Perspectives on Glycemic Control

Dr. Anthony Furnary, *Starr-Wood Cardiac Group, Portland*

Dr. Nicholas Vlahakis, *Mayo Clinic*

Dr. Renda Soylemez Weiner, *Boston University*

Clinical and Analytical Issues

Dr. Richard Hellman, *University of Missouri*

Dr. Mikhail Kosiborod, *St. Luke's Hospital, Kansas City*

Dr. Mitchell Scott, *Washington University, St. Louis*

Dr. David Bruns, *University of Virginia*

Dr. Martha Lyon, *Alberta Children's Hospital*

Future Directions

Dr. Courtney Harper, *Food and Drug Administration*

Dr. David Sacks, *Brigham & Women's Hospital*

Dr. Barry Ginsberg, *Diabetes Consultants*

Dr. Stanley Nasraway, *Tufts Medical Center*

Dr. William Winter, *University of Florida*

*Subject to change

The 29th Arnold O. Beckman conference is being held in conjunction with the 2011 Annual Meeting and Clinical Congress of the American Association of Clinical Endocrinologists (www.aace.com)

ARNOLD O. BECKMAN CONFERENCE

This conference is being presented by the American Association for Clinical Chemistry (AACC) and the National Academy of Clinical Biochemistry (NACB).

The following organizations join AACC and NACB in presenting this conference:

American Association of Clinical Endocrinologists (AACE)

American Diabetes Association (ADA)

Clinical and Laboratory Standards Institute (CLSI)

College of American Pathologists (CAP)

Society for Critical Care Medicine (SCCM)

The AACC's Critical and Point of Care Testing Division also supports this conference.

Register today for the Arnold O. Beckman Conference at: www.aacc.org/events, or call the AACC Customer Service Dept. at 1-800-892-1400 (ask for Product# 6220).

Members of AACE, ADA, CAP, CLSI, and SCCM may register at the AACC member rate by using promotion code 116.

AUTOMATION AND INTEGRATION

The RX series of clinical analyzers offer automation and integration for any size of laboratory

Optimize your laboratories workflow with the RX series of fully automated bench top analyzers. High throughput testing and straightforward operation make the **RX daytona** and **RX imola** cost effective and reliable solutions for laboratories of all sizes.

Flexibility and integration is guaranteed with our comprehensive and diverse test menu

- Routine Chemistry • Lipids • Specific Proteins
- Antioxidants • Therapeutic Drugs • Drugs of Abuse
- Substrates • Enzymes • Trace Metals • ISE

AACC

ANNUAL MEETING *2011*
& CLINICAL LAB EXPO

JULY 24–28, 2011, ATLANTA, GEORGIA
GEORGIA WORLD CONGRESS CENTER

***Education.
Networking.
Exposition.***

*More than 20,000
Participants. Nearly
700 Exhibitors.*

Attend the premier education and networking event for the clinical lab community

- Keep up with the latest trends and advances in the profession
- Learn from colleagues and peers from around the world
- Stay current on continuing changes in the health care environment
- Choose from 5 full days of scientific sessions

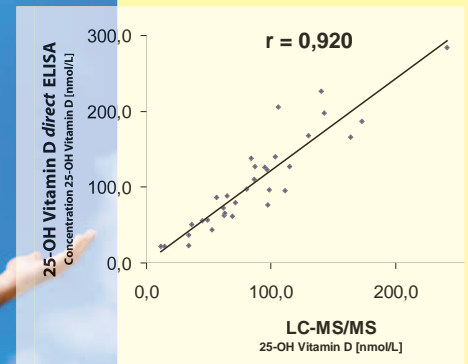

See new science and technology at the largest Clinical Lab Exposition in the world

- Evaluate products of nearly 700 vendors in 1,900 booths
- Learn about new technologies in clinical, molecular and genetic diagnostics, automation, informatics, POCT, OEM, biotech, and more
- Make informed clinical lab purchase decisions
- Earn Continuing Education credit for attending the Clinical Lab Expo

Registration opens April 2011 | www.aacc.org/2011am

Vitamin D ELISA

*Finally: Simple & precise
Vitamin D status analysis*

Excellent accuracy!

25-OH Vitamin D *direct* ELISA

- ▶ Ready for automation
- ▶ Hands-on-Time: 45 minutes
- ▶ Ready-to-use reagents
- ▶ Excellent sensitivity
- ▶ Excellent recovery
