Preamble

Executive Summary: Guidelines and Recommendations for Laboratory Analysis in the Diagnosis and Management of Diabetes Mellitus

D.B. Sacks, M. Arnold, G.L. Bakris, D.E. Bruns, A.R. Horvath, M.S. Kirkman, A. Lernmark, B.E. Metzger, and D.M. Nathan (see special report on page e1)

Editorial

Mutation Distribution in Expanded Screening for Cystic Fibrosis: Making Up the Balance in a Context of Ethnic Diversity

I. Schrijver (see article on page 841)

Perspective

Progress toward Noninvasive Prenatal Diagnosis

A.L. Beaudet

Q&A

Oral Fluid Testing: Promises and Pitfalls

Moderator: M.A. Huestis; Experts: A. Verstraete, T.C. Kwong, J. Morland, M.J. Vincent, and R. de la Torre

Clinical Case Study

Hypocalcemia following Treatment for Hyperthyroidism

C.L. Meek, F. Kaplan, R.S. Pereira, and A. Viljoen

Commentaries

D. Zimmerman

D.B. Endres

Special Reports

Guidelines and Recommendations for Laboratory Analysis in the Diagnosis and Management of Diabetes Mellitus

D.B. Sacks, M. Arnold, G.L. Bakris, D.E. Bruns, A.R. Horvath, M.S. Kirkman, A. Lernmark, B.E. Metzger, and D.M. Nathan (see preamble on page 793)

Opinions

Highly Sensitive Troponin Assays and the Cardiology Community: A Love/Hate Relationship?

J.A. de Lemos, D.A. Morrow, and C.R. deFilippi

The Athlete Biological Passport: An Effective Tool in the Fight against Doping

N. Robinson, M. Saugy, T. Scholl, V.R. Akmaev, D.A. Sirko-Osadsa, B.A. Allitio, and E.A. Sugarman (see editorial on page 799)

Articles

Molecular Diagnostics and Genetics

Analysis of Circulating MicroRNA: Preanalytical and Analytical Challenges

J.S. McDonald, D. Milosevic, H.V. Reddi, S.K. Grebe, and A. Algeciras-Schimnich

Cystic Fibrosis Carrier Testing in an Ethnically Diverse US Population

Endocrinology and Metabolism

Dual-Monoclonal, Sandwich Immunoassay Specific for Glucose-Dependent Insulinotropic Peptide1-42, the Active Form of the Incretin Hormone

Diagnostic Accuracy of Holotranscobalamin, Methylmalonic Acid, Serum Cobalamin, and Other Indicators of Tissue Vitamin B12 Status in the Elderly

E. Valente, J.M. Scott, P.-M. Ueland, C. Cunningham, M. Casey, and A.M. Molloy

Proteomics and Protein Markers

Secretion of Glycosylated Pro-B-Type Natriuretic Peptide from Normal Cardiomyocytes

Prognostic Utility of ST2 in Patients with Acute Dyspnea and Preserved Left Ventricular Ejection Fraction

K.B. Shah, W.J. Kop, R.H. Christenson, D.B. Diercks, S. Henderson, K. Hanson, S.-Y. Li, and C.R. deFilippi
ARTICLES, continued

Human Pro–B-Type Natriuretic Peptide Is Processed in the Circulation in a Rat Model

Sources of Variability in Measurements of Cardiac Troponin T in a Community-Based Sample: The Atherosclerosis Risk in Communities Study

Sandwich Immunoassay for Soluble Glycoprotein VI in Patients with Symptomatic Coronary Artery Disease

BRIEF COMMUNICATION

Immune Complexome Analysis of Serum and Its Application in Screening for Immune Complex Antigens in Rheumatoid Arthritis

INSPIRING MINDS

Marilyn Huestis M. Landau 910

LETTERS TO THE EDITOR

Ethnic Differences in First-Trimester Thyroid Reference Intervals
S.L. La’ulu and W.L. Roberts 913

Recombinant Thromboplastins vs Tissue-Extract Thromboplastins in Patients on Unstable Oral Anticoagulant Therapy
J.A. Remijn, B. Wildeboer, J.D.E. van Suijlen, and H.J. Adriaansen 916

Noninvasive Prenatal Diagnosis of a Case of Down Syndrome due to Robertsonian Translocation by Massively Parallel Sequencing of Maternal Plasma DNA

Primer Sequence Disclosure: A Clarification of the MIQE Guidelines

Transferrin Saturation and Mortality

ON THE COVER Dr. Marilyn Huestis.
In 2010 Huestis was awarded—along with 3 Nobel Prize nominees and 2 British knights—an honorary doctorate in medicine from the University of Helsinki, an event that happens just once every 10 years. This is just one of many accolades that this author of hundreds of papers and the chief of Chemistry and Drug Metabolism at the National Institute on Drug Abuse has received during her 40+-year career in toxicology. Yet it will always be family and friends first for this outgoing, enthusiastic, people-driven scientist. This month’s Inspiring Minds sheds light on how the combination of a big heart and big mind has allowed Marilyn Huestis to be a powerful role model, not just as a scientist, but also as a mother and grandmother. ©Reproduced with permission.
Artist, Martin A. Knapp.

Color figures for Reviews sponsored by Department of Laboratory Medicine, Children’s Hospital Boston.
