ON THE COVER Yuk-Ming Dennis Lo. Dennis Lo is the director of the Li Ka Shing Institute of Health Sciences and is Li Ka Shing Professor of Medicine and professor of chemical pathology, the Chinese University of Hong Kong. He is an elected fellow of the Royal Society,

which, dating back to 1660, is the world's oldest scientific academy in continuous existence. The Society's members include such famous scientists as Isaac Newton, Charles Darwin, Albert Einstein, Francis Crick, James Watson, and Stephen Hawking. But who would believe that this brilliant scientist gets his ideas from such sources as a 3D Harry Potter movie? This is just one of the interesting facts about the subject of the Inspiring Minds article in this month's issue of *Clinical Chemistry*. (See page 784.) ©Reproduced with permission.
