

EDITORIAL

Statistical Methods for Test and Biomarker Evaluation Studies: A *Clinical Chemistry* Series
J.C. Boyd, N. Rifai, and T. Annesley (see review on page 1292) 1273

PERSPECTIVE

Improving the Success and Reliability of Adrenal Venous Sampling: Focus on Intra-procedural Cortisol Measurement M. Stowasser 1275

Q&A

 **Ectopic Pregnancy** Moderators: J.L.V. Shaw and E.P. Diamandis; Experts: A.W. Horne, K. Barnhart, T. Bourne, and I.E. Messinis 1278

CLINICAL CASE STUDY

Sudden Onset of Severe Anemia in a Patient with Cystic Fibrosis B. Nagao, S. Yuan, and M. Bon Homme 1286

COMMENTARIES

B. Grossman 1290
G. Garratty 1290

REVIEW

Quantifying the Accuracy of a Diagnostic Test or Marker K. Linnet, P.M.M. Bossuyt, K.G.M. Moons, and J.B.R. Reitsma (see editorial on page 1273) 1292

OPINION

 **A Unique Approach to Business Strategy as a Means to Enable Change in Global Healthcare: A Case Study** C.R. Mace and U.S. Ryan 1302

ON THE COVER Peter Wilding. A true British gentleman, impeccable dresser and master storyteller, Peter Wilding grew up during the Great Depression and on the brink of World War II. Wilding's association with clinical chemistry began at age 17, when he dropped out of school to work as a medical technician to help his widowed mother financially. He is still active in the field some 60 years later, having gone from academics to industry and back and forth again, as well as between England and America. Although it might appear that he has been blown by the winds of fate, in truth, Wilding has a knack for creating opportunity. Readers can learn more about him in our latest Inspiring Minds article in this issue of *Clinical Chemistry*. (See page 1368.) ©Reproduced with permission. Artist, Martin A. Knapp.

Technology Corner and color figures for Reviews sponsored by Department of Laboratory Medicine, Boston Children's Hospital.
