ON THE COVER

ONE MILLION.
That’s a large number by any count. People want to be millionaires. Writers want to sell a million books. Musicians want to sell a million records. YouTube users want to have a million views. This month, Clinical Chemistry becomes a member of the “one million club.” Clinical Chemistry was one of the first journals to use podcasts to amplify the offerings found in the print version, and our highly successful podcasts have now been downloaded more than one million times. In this issue, Robert Rej provides readers with a history of podcasts and how Clinical Chemistry has adopted this electronic form of communication. (See page 1242.)

Technology Corner, podcasts, and color figures for Reviews sponsored by Department of Laboratory Medicine, Boston Children’s Hospital.

Individual articles may be selected to be a part of the Fast Track Program. Articles receive an expedited review, decision, and, if accepted, online publication.

Clinical Chemistry is now on Twitter, Facebook, and LinkedIn. Be a part of our community and receive updates on the latest issues, upcoming articles, podcasts, and more!

Thank you to our Facebook fans for helping us surpass 50,000 likes in 2014!

Clinical Chemistry apps available on iPhone, iPad, and Android.
