ON THE COVER David Bruns. Regarded as one of the most innovative and visionary clinical chemists of the day, Bruns was the editor of *Clinical Chemistry* from 1990 to 2007, during which he turned *Clinical Chemistry* from a small societal journal to a cutting-edge international publication. But, as with many highly regarded scientists, Bruns has a personal side that might surprise many. For example, he almost left science for a musical career. And then there are the pranks he tries to pull off. Learn more about this unique individual in this month's Inspiring Minds. (See page 573.) ©Reproduced with permission. Artist, Martin A. Knapp.
