

EDITORIAL

- A Study on Shelf Life Prediction Options Can Help Ensure Accurate Laboratory Results** J.R. Budd and M.D. Holland (see article on page 1075) **1049**

PERSPECTIVE

- The Effects of Mipomersen on Inhibiting Hepatic VLDL Apolipoprotein B100 Synthesis and Propensity for Hepatic Steatosis** F.J. Raal and E.A. Stein **1052**

Q&A

- Circulating Tumor DNA as a Cancer Biomarker: Fact or Fiction?** Moderators: F. Leung, V. Kulasingam, and E.P. Diamandis; Experts: D.S.B. Hoon, K. Kinzler, K. Pantel, and C. Alix-Panabières **1054**

CLINICAL CASE STUDY

- A Newborn with Distended Abdomen** R. Selvaratnam and A.B. Karger **1061**
- Commentary** I. De Biase **1064**
- Commentary** U. Garg **1065**

REVIEW

- Prostate-Specific Antigen as a Marker of Hyperandrogenism in Women and Its Implications for Antidoping** N. Musrap and E.P. Diamandis **1066**

ARTICLES

GENERAL CLINICAL CHEMISTRY

- An Extrapolation of a Radical Equation More Accurately Predicts Shelf Life of Frozen Biological Matrices** K.W. De Vore, N.M. Fatahi, and J.E. Sass (see editorial on page 1049) **1075**

MOLECULAR DIAGNOSTICS AND GENETICS

- Thirteen Years of an International External Quality Assessment Scheme for Genotyping: Results and Recommendations** V. Haselmann, W.J. Geilenkeuser, S. Helfert, R. Eichner, S. Hetjens, M. Neumaier, and P. Ahmad-Nejad **1084**

- Identification of Novel Microsatellite Markers <1 Mb from the HTT CAG Repeat and Development of a Single-Tube Tridecaplex PCR Panel of Highly Polymorphic Markers for Preimplantation Genetic Diagnosis of Huntington Disease** M. Zhao, M. Chen, C.G. Lee, and S.S. Chong **1096**

PROTEOMICS AND PROTEIN MARKERS

- Discordance with 3 Cardiac Troponin I and T Assays: Implications for the 99th Percentile Cutoff** J.P.J. Ungerer, J.R. Tate, and C.J. Pretorius **1106**

- Incidence of Undetectable, Measurable, and Increased Cardiac Troponin I Concentrations Above the 99th Percentile Using a High-Sensitivity vs a Contemporary Assay in Patients Presenting to the Emergency Department** S.A. Love, Y. Sandoval, S.W. Smith, J. Nicholson, J. Cao, R. Ler, K. Schulz, and F.S. Apple **1115**

AUTOMATION AND ANALYTICAL TECHNIQUES

- Hydrogel Micropatch and Mass Spectrometry-Assisted Screening for Psoriasis-Related Skin Metabolites** E.P. Dutkiewicz, K.-T. Hsieh, Y.-S. Wang, H.-Y. Chiu, and P.L. Urban **1120**

CANCER DIAGNOSTICS

- A Study of Hypermethylated Circulating Tumor DNA as a Universal Colorectal Cancer Biomarker** S. Garrigou, G. Perkins, F. Garlan, C. Normand, A. Didelot, D. Le Corre, S. Peyvandi, C. Mulot, R. Niarra, P. Aucouturier, G. Chatellier, P. Nizard, K. Perez-Toralla, E. Zonta, C. Charpy, A. Pujals, C. Barau, O. Bouché, J.-F. Emile, D. Pezet, F. Bibeau, J.B. Hutchison, D.R. Link, A. Zaanen, P. Laurent-Puig, I. Sobhani, and V. Taly **1129**

LIPIDS, LIPOPROTEINS, AND CARDIOVASCULAR RISK FACTORS

- Short Telomere Length and Ischemic Heart Disease: Observational and Genetic Studies in 290 022 Individuals** A.S. Madrid, L. Rode, B.G. Nordestgaard, and S.E. Bojesen **1140**

CITATION CLASSIC

- The Impact of Gene Expression Patterns in Breast Cancer** T. Sørbye **1150**

PEARLS OF LABORATORY MEDICINE

Clinical Chemistry Trainee Council (CCTC) is a free online program for residents and fellows in laboratory medicine. The program provides a wealth of free educational materials and interactive tools, including Podcasts, Guide to Scientific Writing, Question Bank, Pearls of Laboratory Medicine, and much more. The Pearls are brief presentations on one key topic succinctly presented using slides, audio, and transcript supplements.

Join the CCTC today (traineecouncil.org) for free access to the following Pearls of Laboratory Medicine. With nearly 100 Pearls now available, 10 are highlighted here.

ACCENT®—CONTINUING EDUCATION CREDIT FOR READERS OF *CLINICAL CHEMISTRY*

For more information go to <http://www.aacc.org/education-and-career/clinical-chemistry-journal-continuing-education-credits>

ON THE COVER In January 2008, *Clinical Chemistry* introduced a new monthly feature, the Clinical Case Study. These case presentations were designed to be educational rather than a report of a rare disease. Our plan was to post the case description before the actual publication date, as well as make the case description available to training programs. The almost 10,000 laboratory scientists and physicians from 150 countries who receive them every month evidence the success of this educational series. In 2016 we have reached two milestones worth celebrating. The first is the recent publication of our 100th Clinical Case Study. The second and more exciting milestone is that we have topped 1 million downloads for the Clinical Case Studies. So if you have not been a follower of our case studies, start with this month's description of a newborn with a distended abdomen. (See page 1061.)

Technology Corner, podcasts, color figures for Reviews, and Clinical Chemistry Trainee Council sponsored by Department of Laboratory Medicine, Boston Children's Hospital.

Clinical Chemistry podcast coming soon to <http://www.clinchem.org>.

Individual articles may be selected to be a part of the Fast Track Program. Articles receive an expedited review, decision, and, if accepted, rapid online publication.
