SAVE THE DATES: JULY 30-AUGUST 3, 2017

69TH AACC
ANNUAL SCIENTIFIC MEETING
& CLINICAL LAB EXPO
JULY 30 - AUGUST 3, 2017
SAN DIEGO, CA USA

For five science-packed days in San Diego, the sharpest minds in clinical laboratory medicine will come together to share cutting-edge ideas that are rapidly becoming the new reality. Attend the 69th AACC Annual Scientific Meeting & Clinical Lab Expo to hear from the foremost experts to ignite your passion for discovery and connect you with an international community of change makers.

Registration opens April 2017.
Check for more details and complete programming at www.aacc.org/2017am.
Developing an Innovative New Assay?
Let’s Talk About Innovative QC Material.

VISIT US AT STAND NO. Z4.J49 AT MEDLAB MIDDLE EAST 2017
AaltoScientific.com | aaltosales@aaltoscientific.com | 1.800.748.6674

All un-waived assays in the US require Calibration Verification. Aalto Scientific has been providing our customers with solutions for Quality Control Materials for more than 35 years; bringing novel assays to market faster, with fewer regulatory hurdles.

Aalto Scientific Ltd. - Custom OEM/Private Label Solutions for:
• Calibration Verification & Linearity
• Controls & Calibrators
• Proficiency Material
• Filling, Lyophilization & Packaging
• Antigen Purification
The Quick Guide to Body Fluid Testing is intended to provide clinical laboratory directors, managers, and medical laboratory scientists with practical information to consider when testing body fluids. This concise pocket reference outlines the entire body fluid testing process, beginning with the preanalytical phase, which includes collection, labeling, transport, processing, and test requests/order management. Practical how-to guidance is provided to complete the analytical validation and includes figures that illustrate the preparation of specimens for each experiment and example calculations to manage and analyze the data for test performance verification in body fluid matrices. Postanalytical considerations are outlined, including best practices for reporting, and some common interpretive information about body fluid testing results is also provided.

Access the full potential of your lab

AACC’s new Institutional Subscription provides access to AACC’s library of Online Certificate Programs for your organization at special institutional rates.

AACC Online Certificate Programs offer:
- Expanded skills with expertise from industry leaders
- Convenience with self-paced training
- A wealth of CE credit

13 On-Demand Programs

Laboratory Management
- Basic Principles and Architecture of Laboratory Information Systems
- Clinical Laboratory Leadership and Management
- Laboratory Operational Management
- Patient Safety Essentials for Laboratory Professionals
- Practical Approaches to Quality Control in the Clinical Laboratory
- Regulatory Affairs for Laboratory Compliance
- Statistical Methods for Clinical Laboratory

Laboratory Testing
- Fundamentals of Molecular Pathology
- Point-of-Care Specialist
- Improving Outcomes Through Point of Care Testing
- Principles of Clinical Toxicology

Laboratory Technology
- Basic Concepts and Clinical Applications of Flow Cytometry
- Introductory Liquid Chromatography Mass Spectrometry for the Clinical Laboratory

Visit www.aacc.org/InstitutionalCP or call +1 (202) 835-8747 for details.
It is a question of trust

Cardiac markers from HyTest

HyTest has been a trusted supplier of monoclonal antibodies and antigens for the IVD industry for over 20 years.

- Troponin I
- Lp-PLA2
- NT-proBNP and BNP
- PAPP-A
- IGFBP-4
- CRP

High-quality monoclonal antibodies and antigens for the diagnostic industry
Cardiac Markers | Infectious Diseases | Metabolic Syndrome | Veterinary | And more

Over 20 years of building success with science and commitment
Since 1994, we have developed and supplied immunological reagents for the IVD industry and research community. Today we provide products for several clinical and research areas, and are proud to be the leading provider of troponin I antibodies and troponin complex. Together. Today and Tomorrow.
Competence in Stool Diagnostics

IDK Extract®

- fast ✓
- efficient ✓
- clean ✓

- Stool sample preparation totally relaxed
- Stool analytics with one buffer in a single extraction step for:

  Calprotectin       Bile Acids
  Pancreatic Elastase       α₁-Antitrypsin
  Hemoglobin                   β-Defensin 2
  Hemo-Haptoglobin-Complex     Lactoferrin
  EDN/EPX                   anti-Transglutaminase Ab
  sIgA                         anti-Gliadin Ab
  Albumin                      Lysozyme

IDK Extract® is ready-to-use for STD + CTRL.

With more than 121 assays from MAGLUMI Chemiluminescence Immunoassay (CLIA) System, which covers tumor markers, cardiac, fertility, thyroid and more, Snibe can provide more choices for your routine and specialty immunoassay.
The Department of Laboratory Medicine, University of Washington, seeks pathologists for full time Professor, Associate Professor or Assistant Professor without tenure in clinical chemistry on the Physician-Scientist or clinician educator pathway. This would be a 12-month, multi-year appointment. University of Washington faculty engage in teaching, research and service. The primary service responsibility will be to participate in the direction of one or more of the Department’s clinical chemistry laboratories. Additional responsibilities include the teaching of residents, fellows, medical students, and medical laboratory scientist program undergraduates, and development of an extramurally funded research program. Applicants must possess an earned M.D.-Ph.D., or M.D. degree, and be board-certified or board-eligible in Clinical Pathology or possess an earned Ph.D. and be board-certified by the American Board of Clinical Chemistry. Documented experience is required directing clinical laboratories and in the clinical interpretation of clinical chemistry testing results. Research experience and a record of publications are also required. Graduates of non-U.S. medical schools must have completed all three steps of the U.S. Medical Licensing Exam (USMLE), or equivalent as determined by the Secretary of Health and Human Services.

Applicants should submit a letter detailing their research interests and future goals and a current CV, and arrange to have four letters of recommendation submitted. All materials should be received no later than January 31, 2017, and should be sent to: Chemistry Search Committee, c/o Karen Walter, Box 357110, University of Washington, Seattle, WA 98195-7110 (kwalter@uw.edu).

The University of Washington is an affirmative action and equal opportunity employer. All qualified applicants will receive consideration for employment without regard to race, color, religion, sex, sexual orientation, gender identity, national origin, age, protected veteran or disabled status, or genetic information.
