PEARLS OF LABORATORY MEDICINE

Clinical Chemistry Trainee Council (CCTC) is a free online program for residents and fellows in laboratory medicine. The program provides a wealth of free educational materials and interactive tools, including Podcasts, Guide to Scientific Writing, Question Bank, Pearls of Laboratory Medicine, and much more. The Pearls are brief presentations on one key topic succinctly presented using slides, audio, and transcript supplements.

Join the CCTC today (traineecouncil.org) for free access to the following Pearls of Laboratory Medicine. With over 100 Pearls now available, 2 are highlighted here.

Chakri Gavva
Blood Donor Eligibility and Donation Suitability

ON THE COVER "L" Train on Lake Street. You know you are in Chicago by the creak and rattle of the "L" trains traveling overhead, blending into the sound of cars, buses, and people below. The "L" (not "El" for its elevated set of tracks), created in 1892 with the first elevated

train called the "Alley L," was designed to solve the city's traffic problems, a goal still sought in 2018. But traffic aside, this historic city remains a gathering place because of its stunning architecture, art galleries, Millennium Park, and the Magnificent Mile. In July 2018, Chicago will also be the gathering place for thousands of laboratory professionals seeking the latest cutting-edge science in areas such as targeted cancer therapies, translational medicine, the HPV vaccine, nucleic acid detection using CRISPR-Dx, and meeting the diagnostic needs of a global population. Plus, there is the world's largest Clinical Lab Expo. So, enjoy the Windy City! ©Robert Wojtowicz / RWIMAGES.COM. Reproduced with permission.

Technology Corner, podcasts, color figures for Reviews, and Clinical Chemistry Trainee Council sponsored by Department of Laboratory Medicine, Boston Children's Hospital.

Clinical Chemistry podcast coming soon to <http://www.clinchem.org>.

Individual articles may be selected to be a part of the Fast Track Program. Articles receive an expedited review, decision, and, if accepted, rapid online publication.
